PRODUCT USER GUIDE

RLP-8012

Heavy Duty AC to DC Power Supply

Owners Guide

(These instructions are intended for use by a technician familiar with electronic products)

- Power Factor Correction
- AC Input Voltage is Automatically Selected
- Large Scale Volt/Amp Meter
- Short Circuit / Overload / Over Voltage / Over Temperature Protection
- Approvals: UL, CE, TUV, CUL (modules)
- 3 year warranty

DESCRIPTION

The RLP-8012 comes with a built-in meter that can monitor voltage and amperage by simply switching the Knob that is located to the right of the display (Note: the RLP-8012 can only monitor one input at a time). The RLP-8012 has auto ranging input voltage from 100 to 260 VAC and comes with four layers of protection short circuit, overload, over voltage, and over temperature.

SPECIFICATIONS

Output Voltage.....	13.8 VDC
Output Voltage Tolerance.....	+/- 1 %
Output Amperage	70 Amps cont.
Maximum Power,	1000 Watts
Output Voltage Adjustment.....	12.5-14 VDC
Maximum Ripple and Noise.....	150 mV p-p max
Input Voltage, Auto Ranging.....	100-to 260 VAC
Input Frequency Range	47-63 Hz
Maximum AC Current	14 Amps/120 VAC; 7 Amps/240 VAC
Typical Efficiency	84 %
Max Inrush Current, single cycle	35 Amps
Short Circuit Protection.....	Foldback Limiting
Overload Protection (operates)	typical 110-120 %
Line Regulation.....	.50 mV
Load Regulation	100 mV (20-100 % load)
Fan Control	Heat sink temp >140 F (60 C) = ON
Over Temperature	>195 F (90 C) auto output shutdown
Rise Time following ON50 mS
Hold Time following OFF	10 mS
Working Temperature Range	-130 – 140 F (-90 - +60 C)
Storage Temperature	-40 - 185 F (-40 - +85 C)
Withstand Voltage*	1.5 KV @ 10 ma(I/P-O/P, I/P-FG)/1 min
(Continued)	500 V @ 10 ma(O/P-FG)/1 min
Dimensions.....	3.5H x 19W x 13D inches, nominal
Weight	21 lbs, nominal

METER CIRCUITS

The panel meter is switched to provide DC output voltage measurement and individual output load current measurement for each individual module.

When set to the VOLT position, the full scale reading is 30 volts.

When set to the AMP position, the full scale reading is 60 amps.

The meter and associated circuitry accuracy is 10 percent of full scale deflection. Since full scale is 60 amps, a 20 amp current can vary from 18 to 22 amps indicated. To prevent unnecessary output voltage drops, the meter circuits use the voltage drop of the black #10 AWG negative return to the module as a meter shunt. The #10 AWG wire provides a nominal 100 mV drop at 60 amps

The meter sensitivity for voltage measurement is 1000 ohms per volt.

BATTERY BACK UP & CHARGER (Optional)

Maximum Power, continuous	1000 Watts
Auto-revert to Battery or Power Supply	Provided by dual Shottky diode in OR configuration
Maximum Output Current in Battery Mode	75 Amps (limited by Shottky diode)
Maximum Charge Voltage	13.8 VDC
Maximum Recharge Rate	7 Amps with auto sensing of charge current
Charger Protection	Overload/voltage/temperature/reverse polarity protected
Dead Battery Protection	Short circuit protected with deep discharge start function
AC Input	90-130 / 180-260 VAC, 47-63 Hz, switch selected
Visual Indication	Bi color LED indication: Red = high rate charge, Green = Float charge

LOW VOLTAGE DISCONNECT with RELAY (Optional)

Maximum Interrupt Current / continuous current	75 amp DC
Disconnect Voltage	11.5 VDC
Reconnect Voltage	12.5 VDC
Disconnect Delay	2 minutes @ less than preset disconnect voltage

INSTALLATION WARNING

WARNING: THERE ARE NO USER SERVICEABLE PARTS INSIDE. SERVICE AND REPAIR MUST BE REFERRED TO QUALIFIED FACTORY PERSONNEL.

NOTE: The individual user should take care to determine, prior to use or installation, whether this device is suitable, adequate or safe for the use intended. Since individual applications are subject to great variation, DuraComm makes no representation or warranty as to the merchantability, suitability or fitness of these units for any specific application.

NOTE: The precision regulated power supplies operate internally from voltages in excess of 12/24/48 volts. In rare cases, voltage spikes or transients on the AC power line, or overheating, may cause a component failure in the power supply. Overloading the output will cause the over current feature to operate. In either case, the cause must be determined and corrected.

Failures require investigation as to cause and/or repair of the unit.

INSTALLER NOTES

NOTE: DO NOT block any of the cooling vents on the sides and always allow adequate ventilation by not installing the unit inside tightly closed spaces. Physical mounting position is not critical but the cooling vents must not be blocked.

NOTE: The outputs are NOT referenced to the chassis. **The Modular System can be used either positive or negative ground.**

CONDUCTOR PRETREATMENT

All kinds of copper conductors can be clamped without treatment. DO NOT solder tin stranded conductors. The solder yields and fractures under high pressure. The result is increased contact resistance and excessive temperature rise. Additionally, corrosion has been observed due to the fluxes. Notch fractures at the transition from the rigid tinned part to the flexible conductors are also possible. Ferrules can be used as a protection when wiring stranded conductors. Copper ferrules prevent the current transfer from being influenced by dissimilar metals and remove the risk of corrosion. Always use the correct tool to crimp the ferrule

RECOMMENDED COPPER WIRE SIZE FOR CURRENT CAPACITY

(Insulated Wire, Single Conductor in free air)

<u>Current Level in Amperes</u>	<u>Wire Size</u>
<i><7 AMPERES</i>	<i>20 AWG Up to 5 feet 18 AWG Up to 10 feet</i>
<i>14 AMPERES</i>	<i>18 AWG Up to 5 feet 16 AWG Up to 10 feet</i>
<i>20 AMPERES</i>	<i>16 AWG Up to 5 feet 14 AWG Up to 10 feet</i>
<i>30 AMPERES</i>	<i>14 AWG Up to 5 feet 12 AWG Up to 10 feet</i>
<i>40 AMPERES</i>	<i>12 AWG Up to 5 feet 10 AWG Up to 10 feet</i>
<i>50 AMPERES</i>	<i>10 AWG Up to 5 feet 8 AWG Up to 10 feet</i>
<i>70 AMPERES</i>	<i>8 AWG Up to 5 feet 6 AWG Up to 10 feet</i>
<i>100 AMPERES</i>	<i>6 AWG Up to 5 feet 4 AWG Up to 10 feet</i>

LIMITED WARRANTY

DuraComm warrants to the initial end user, each power supply manufactured by DuraComm to be free from defects in material and workmanship, when in normal use and service for a period of three year from the date of purchase, from an authorized DuraComm dealer.

Should a product manufactured by DuraComm fail or malfunction due to manufacturing defect, or faulty component, DuraComm, at its option, will repair or replace the faulty product or parts thereof, which, after examination by DuraComm, prove to be defective or not operational according to specifications in effect at the time of sale to the initial end user. The product that is replaced or repaired under the provisions of this warranty, will be warranted for the remainder of the original warranty period, only, and will not extend into a new three year warranty period.

The limited warranty does not extend to any DuraComm product which has been subject to misuse, accidental damage, neglect, incorrect wiring not associated with manufacture, improper charging voltages, or any product which has had the serial number removed, altered, defaced, or changed in any way.

DuraComm reserves the right to change, alter, or improve the specifications of its products at any time, and by so doing, incurs no obligation to install or retrofit any such changes or improvements in or on products manufactured prior to inclusion of such changes.

DuraComm requires any product needing in or out of warranty service to be returned to DuraComm. All requests for warranty service must be accompanied by proof of purchase, such as bill of sale with purchase date identified. DuraComm is not responsible for any expenses or payments incurred for the removal of the product from its place of use, transportation or shipping expenses to the place of repair, or return expenses of a repaired or replacement product to its place of use.

The implied warranties which the law imposes on the sale of this product are expressly LIMITED, in duration, to the three (3) year time period specified herein. DuraComm will not be liable for damages, consequential or otherwise, resulting from the use and operation of this product, or from the breach of this LIMITED WARRANTY.

Some states do not allow limitations on the duration of the implied warranty or exclusions or limitations of incidental or consequential damages, so said limitations or exclusions may not apply to you. This warranty gives you specific legal rights which vary from state to state.

This warranty is given in lieu of all other warranties, whether expressed, implied, or by law. All other warranties, including WITHOUT LIMITATION, warranties of merchantability and fitness or suitability for a particular purpose, are specifically excluded. DuraComm reserves the right to change or modify its warranty and service programs without prior notice.
