

# DP-10iN-100-MU

## Rack Mount E-Fuse DC Distribution Panel

- Provides internet-based monitoring and control of DC power distribution through standard RJ45 Ethernet port
- Each electronic fused channel features independent on/off control and remote reset (no need to manually reset fuses on site)
- Individual voltage and current monitoring for each channel
- User adjustable over and under voltage protection on each channel
- TCP/IP communication over RJ45 ethernet
- Integrated HTTP web server for monitoring and control, no additional software required
- Can be configured to issue alarm email when channel trips off
- Front mounted LCD display and indicator LEDs for local monitoring of status, input voltage and current draw from each channel
- SNMPv1, v2c, & v3 with MIB file from [www.DuraComm.com](http://www.DuraComm.com)
- Email notifications via SMTP
