

New Product Information

PSRM-NFPMU series

DuraComm Public Safety Rack Mount
Power Supply with NFPA® Alarms
& Remote Monitoring and Control

Category:	DAS, Public Safety, Power Systems, Site power Monitor
Function:	Public Safety Rack Mount Power Supply with Battery Management System & NFPA® Alarms & Remote Monitoring & Control.
Description:	The PSRM-NFPMU Series are 750 Watt power supplies with integrated Battery Management System and NFPA® 1221 compliant alarms. The AC to DC rectifier provides up to 750 Watts filtered DC output. Battery charging, AC fail battery revert, and Low Voltage Disconnect are provided by an integrated Battery Management System. Alarming is provided by NO/NC form C contacts on the rear panel and visual LED indicators on the front. An ethernet/ web interface is included for monitoring and control of the power system and alarms. The PSRM-NFP series is available in 12, 24, & 48 VDC output.

Specifications			
(See Individual Product Owners Guide for full Specifications)			
Model Number	PSRM-5012NFPMU	PSRM-2524NFPMU	PSRM-1248NFPMU
Output Voltage	13.8VDC	28.0VDC	55VDC
Output Current	50A	25A	12A
Efficiency	89%	90.50%	92%
Input Voltage	90~264 VAC auto-ranging, 47~63 Hz		
Operating Temp Range	-30 to +70C / -22 to +158F		
Dimensions	3.5" H x 19" W x 13" D		
Shipping Weight	14 lbs.		
Warranty	3 Years Repair or Replace		

Product Pricing Information
